what is NFT Fund ?

Numerous hedge fund companies are entering the cryptocurrency market. We've been thinking about a simpler and safer way to invest money in hedge funds. That's why we created a guaranteed NFT hedge fund. You can easily invest cryptocurrencies in hedge funds by purchasing NFTs.

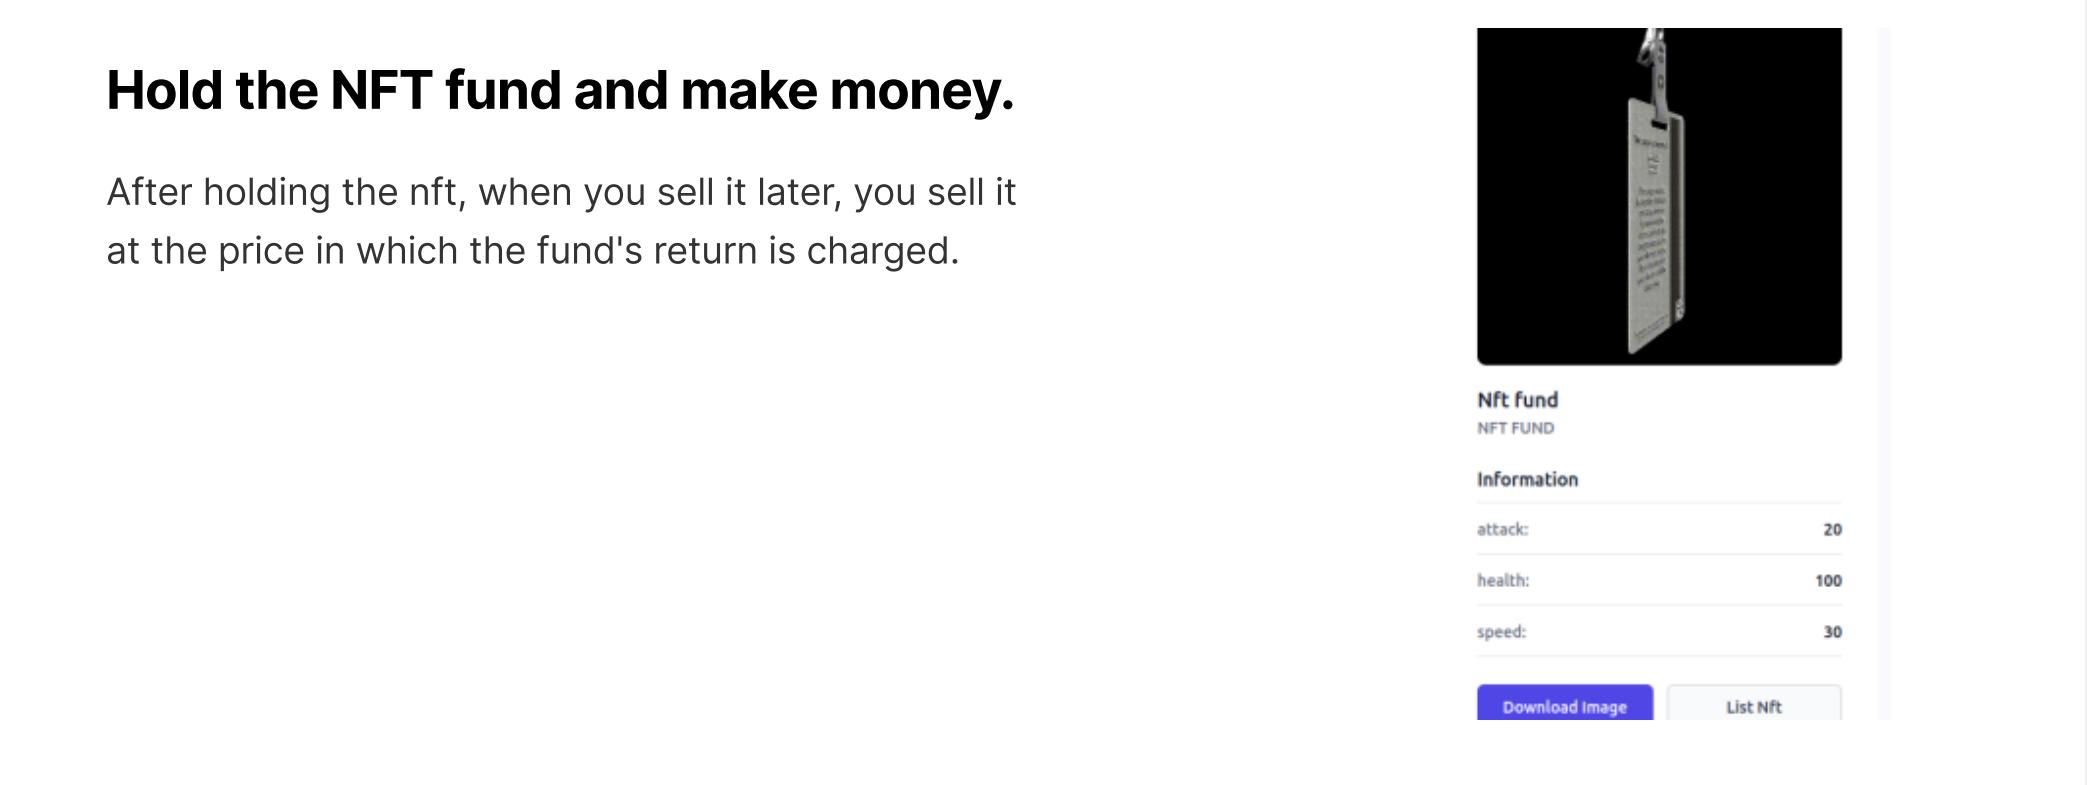

buy your nft fund

There are several nft on the nft marketplace and you can buy whatever you want.

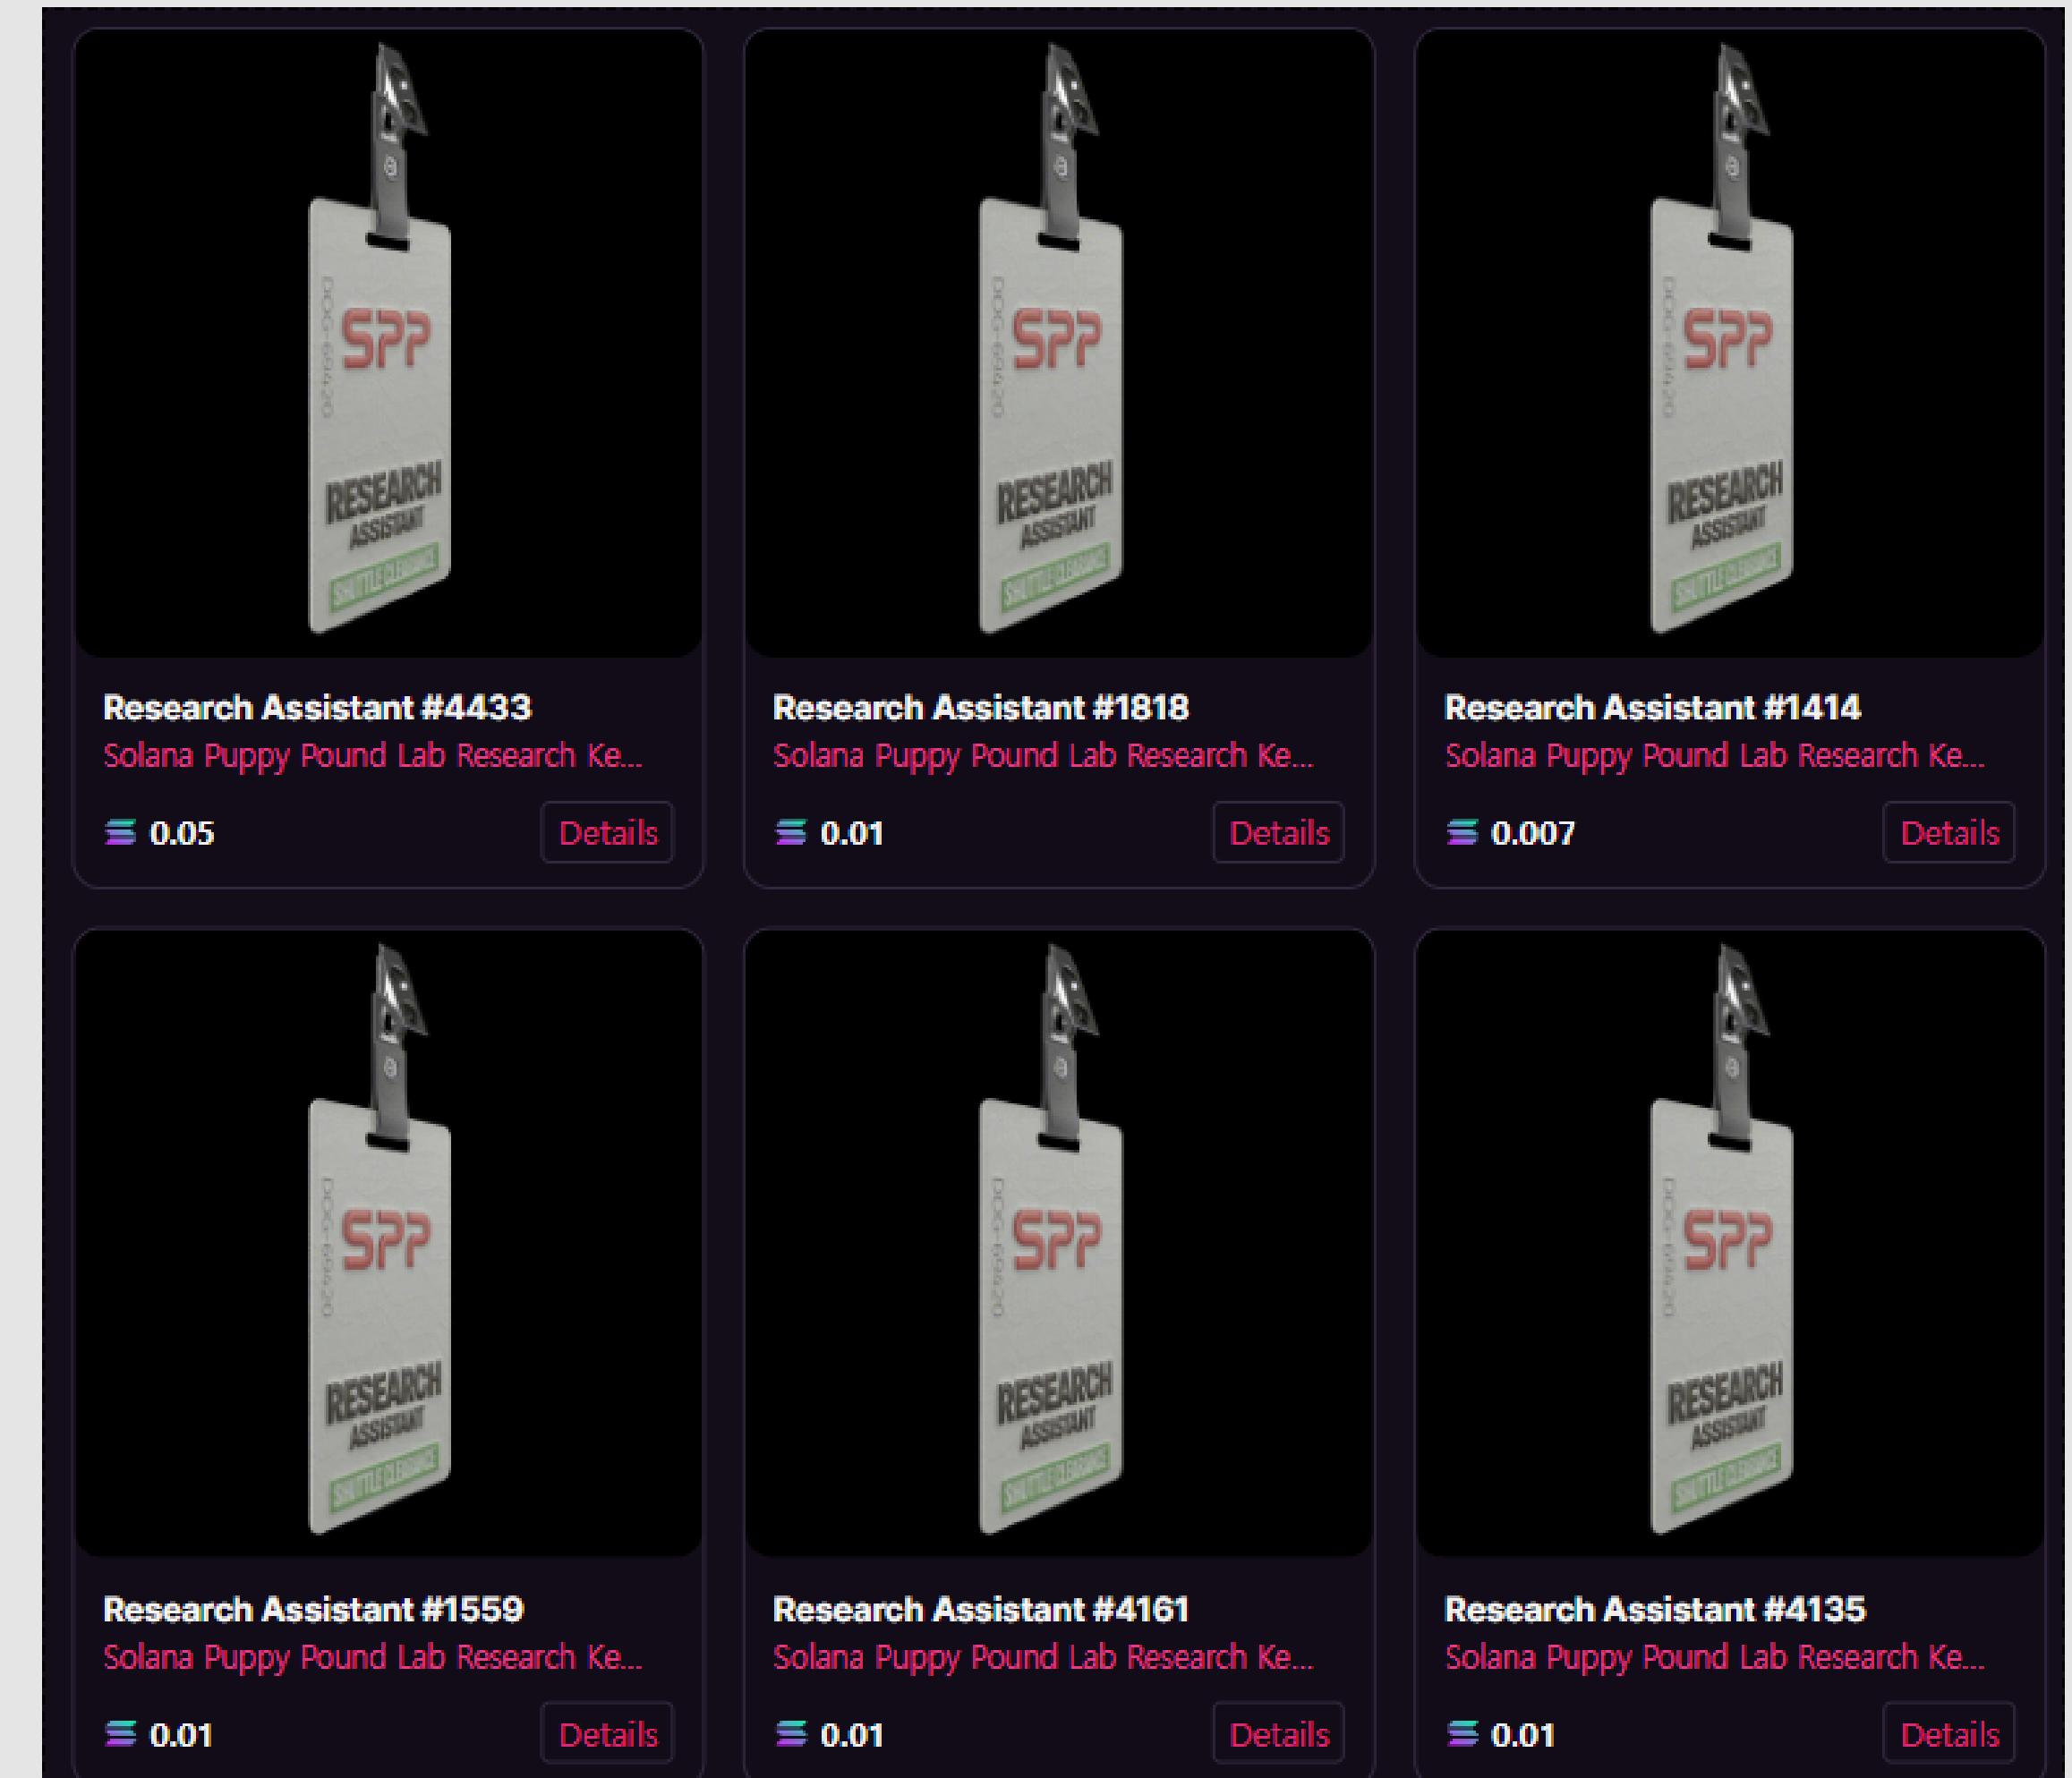

Hold the NFT fund and make money.

After holding the nft, when you sell it later, you sell it at the price in which the fund's return is charged.

Try it out

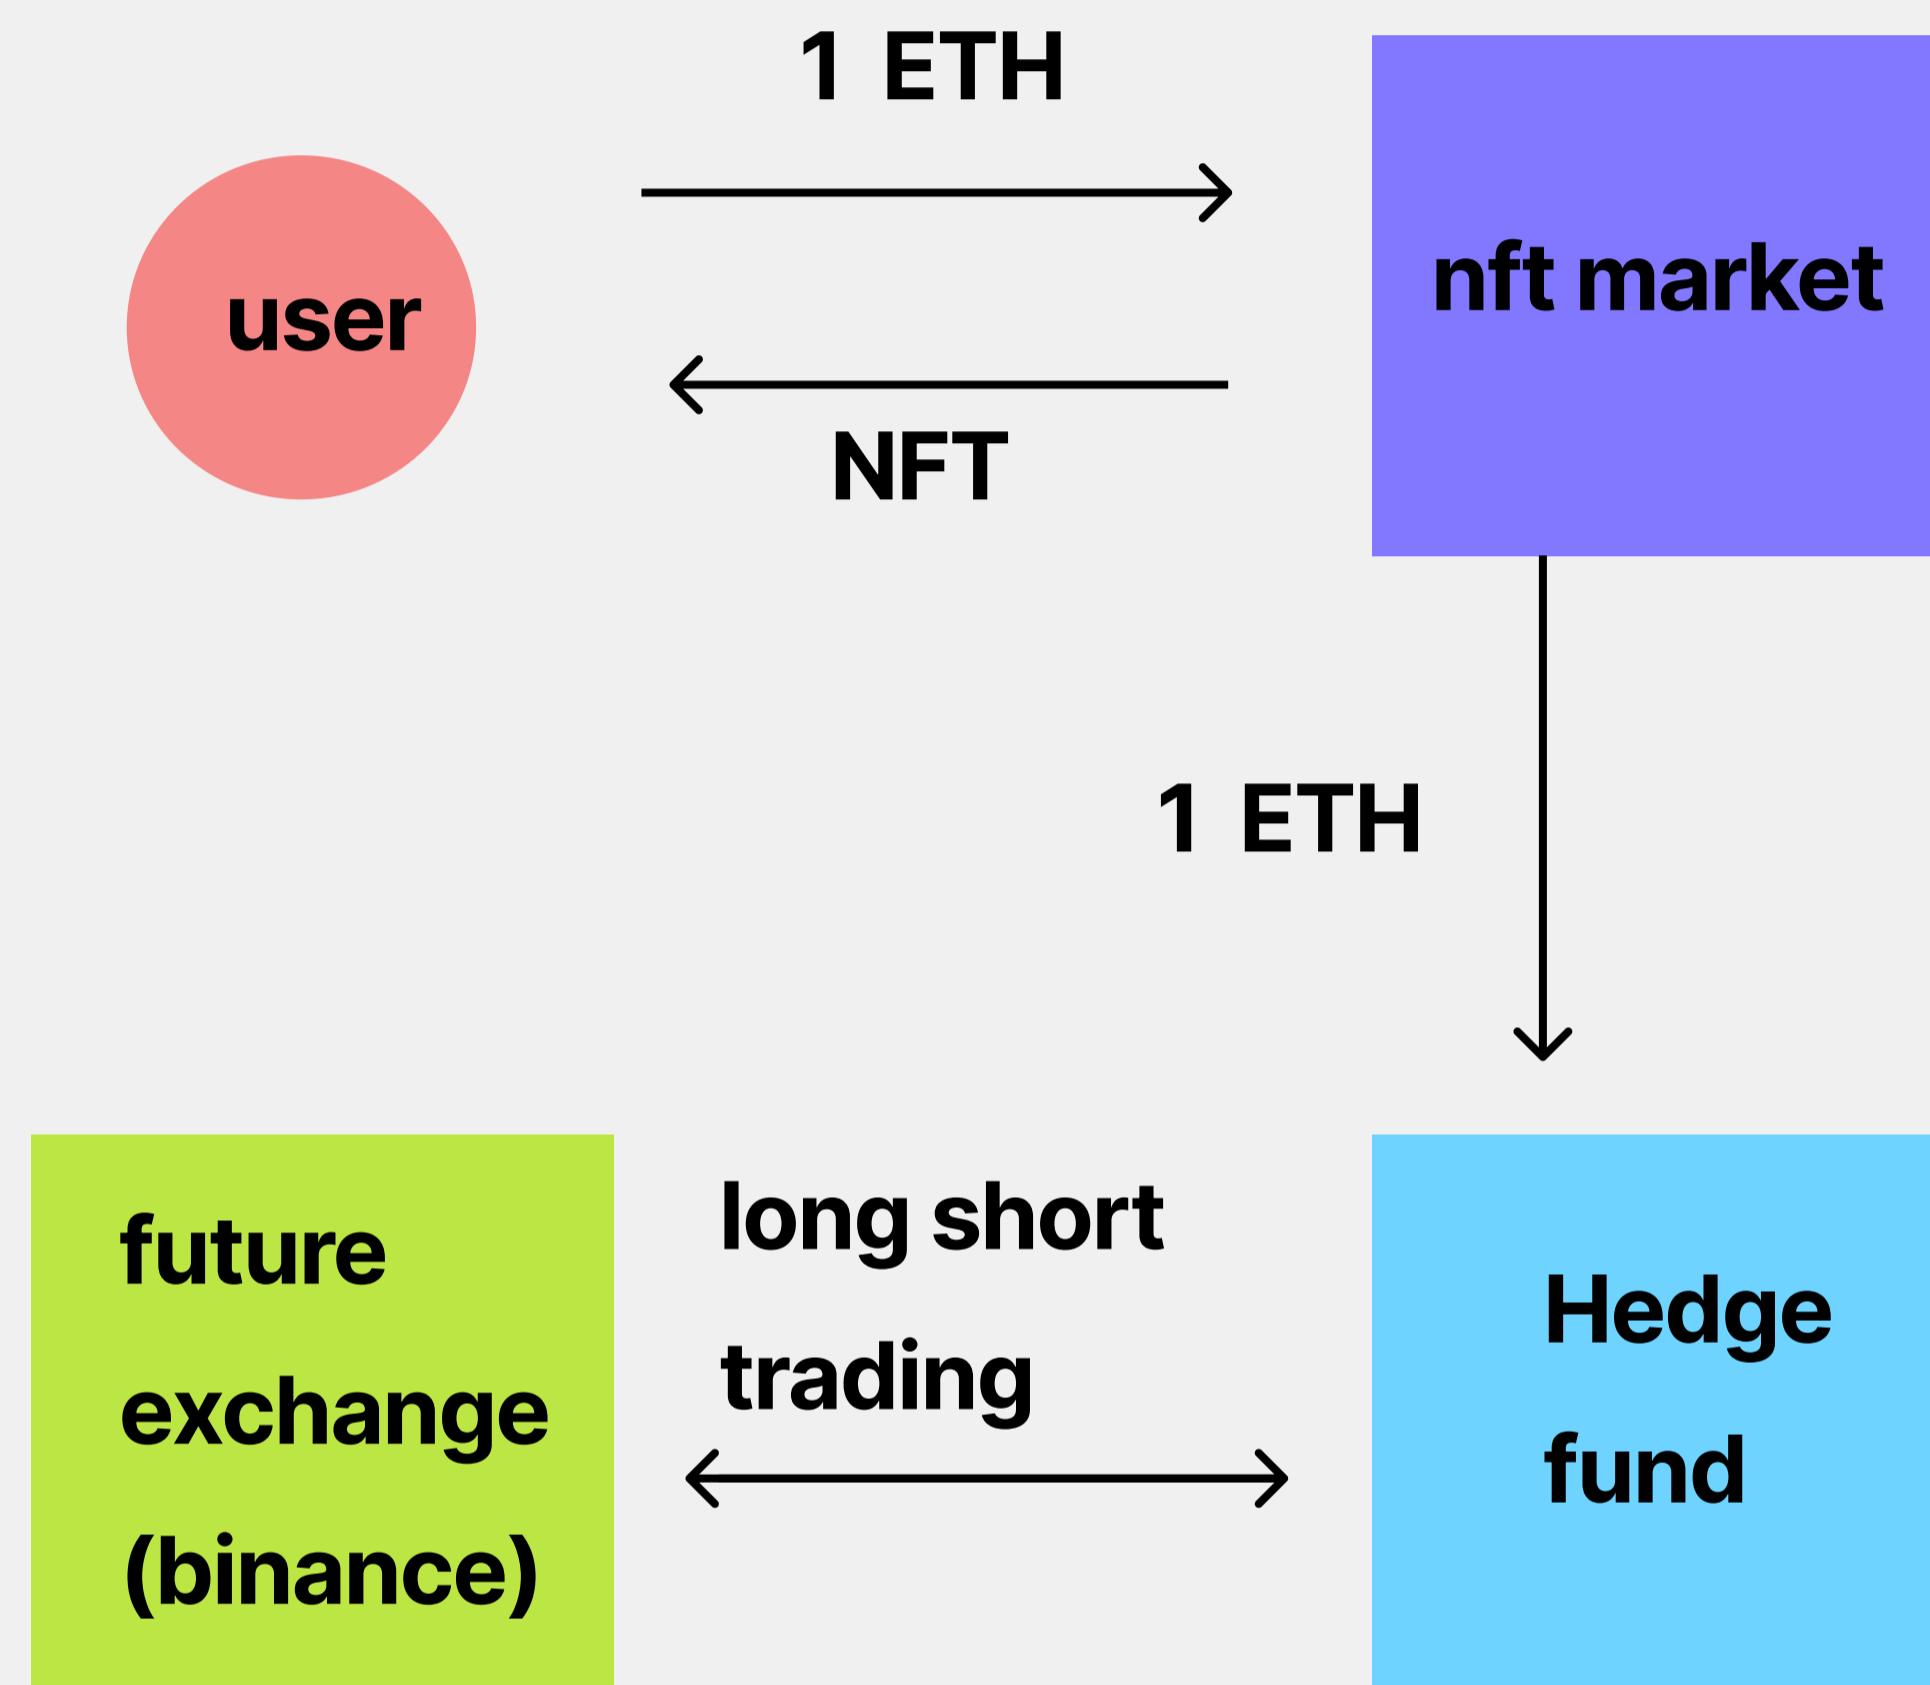

<https://blockchain-fund-d2lrgnb37-asgdlo.vercel.app/>

2

How this work?

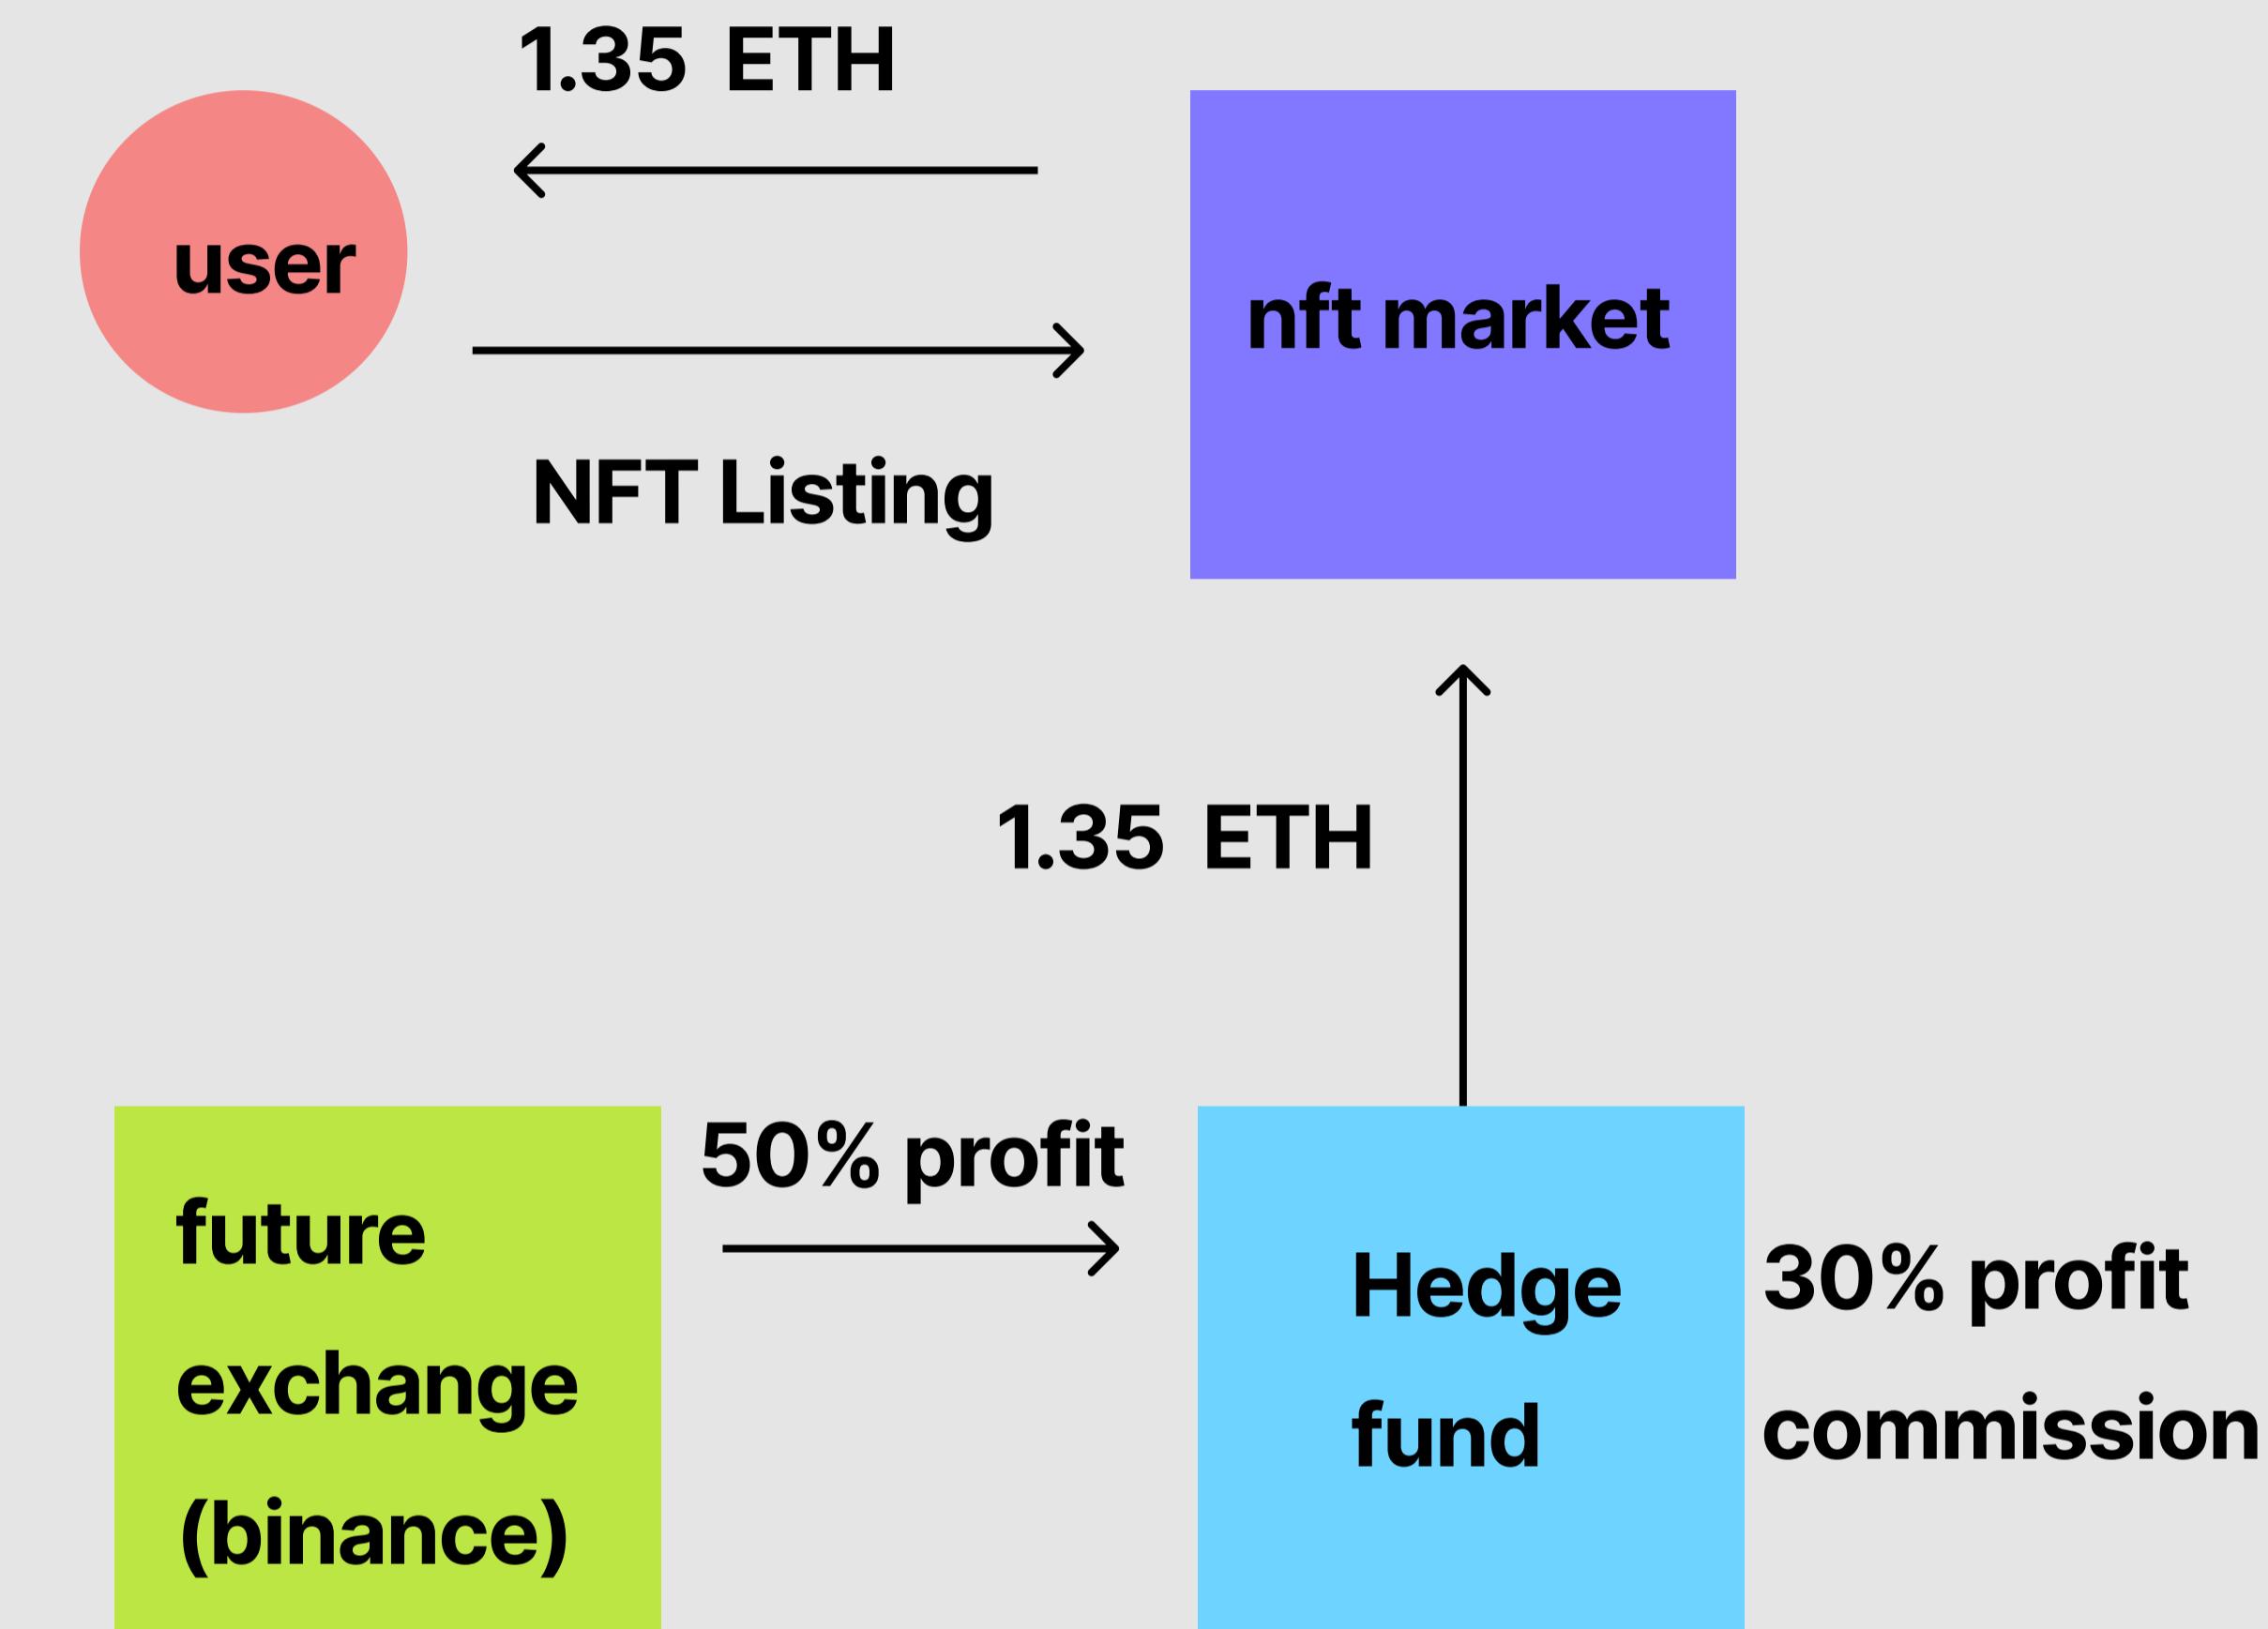

When a user buys an nft from the marketplace, the hedge fund company's asset is traded through the Binance Futures trading market.

How do I redeem a fund?

After the lockup period (3 months), users can sell nfts on the marketplace.

NFT is automatically sold when it is listed at the specified price set by the fund profit

3

what if ethereum price going down? am i lose money?

No, when you purchasing nft, we evaluate the asset based on the usdt value of Ethereum, and defend against a decline in value with a long-short strategy.

Based on the value of Ethereum at the time of purchase

1 ETH = 1000USDT

Current price
◆ **0.42** (\$440.05)
Buy now **Make offer**

How NFT Autobots Works

The ai bot will bid while modifying the nft price in real time with the measured profit

제의하기

When you make an offer, the funds are kept in your bidding wallet to allow you to make multiple offers using the same funds. To view, deposit, or withdraw from your bidding wallet.

Fund the offer

Transfer money from your main wallet to the bidding wallet account.

how to manage my money?

We developed algorithms that make the best returns, and created a system that automatically manages assets through computer programming.

There are two advantages of our algorithm.

1. we make 103% return with long short strategies for 3 month
2. Backtesting and real trading have been proven to have low fluctuations and high returns
